## MEET THE JUDGES

### Mr. Delbert L. Thacker

Mr. Delbert Thacker has owned Siberians since 1978 under the name Kalonik Kennel. Recently he teamed up with an Egyptian friend to form Ahdel Siberians. He learned to handle through Obedience training classes and works his dogs in harness for conditioning. He showed many Siberians over the years beginning with Innisfree Siberians. More recently, GCHP Karnovanda's Stephen Coldbear finished his career with 13 Best in Shows, 14 Reserve Best in Shows and 30+ Best in Specialty Show wins. Stephen won the breed at Westminster, the National Specialty in 2022 and was the people's and judges' choice in 2014 for the Top 20. Mr. Thacker judges 14 working breeds and has judged in Italy, Spain, Australia as well as most of the United States. Mr. Thacker has served as the President, Vice-President, Recording Secretary and Board of Directors of the Siberian Husky Club of America. He is currently the Corresponding Secretary and will be petitioning again for that position. He co-authored a chapter in Michael Jennings book, "The Siberian Husky: Able Athlete, Able Friend." He was an area director for the International Siberian Husky Club. His work on the Standard Revision, SHCA membership, and the Illustrated Standard has been an ongoing endeavor. Mr. Thacker would like to convey his appreciation for inviting him to judge your show and for giving him another chance to come to beautiful California.

**Mr. John P. Linnehan**

About 1967, I met Ronnie Lombard, son of Roland and Louise Lombard. He introduced me to the Siberian Husky but it was 1973 when I purchased my first dog. 1975 saw me at my first SHCA National in Keene, New Hampshire. I have been, lacking a better word, "involved" since then. What has been most amazing is the people. I came along just in time to have met - and benefitted from meeting - most of the pioneers in the breed. Looking back, which is both the blessing and the curse of age, I could not have been more fortunate. Suffice it to say that, while there are many changes I would like to see, both the journey and the destination have been wonderful. Judging? Well, that has allowed me to deepen my love for this breed. I find myself constantly in awe of what the Siberian is capable of and hoping the next generation realizes the heavy responsibility and burden this places on them to continue to challenge the Siberian to excel not just as a show exhibit but the elite working dog we have been privileged to inherit.

Mariposa Thunder  
Mountain  
(Thunder) CD  
1973-1981

Kochevoey's Silver Meshka (Meshka)  
UD, Can CD, UKC-CDX, TT, TDI  
(1988 - 1999)

As we welcome everyone to the 29<sup>th</sup>, 30<sup>th</sup>, and 31<sup>st</sup> Specialty Shows, we look back upon our 52 years owned by Siberian Huskies; 47 years as member of NCSTHC and 35+ years as a member of SHCA and bid a recent farewell to our sweet girl, Xena . . . .

Xena (1/29/1014 - 2/11/2025)

### Brenda Valletta

I am fortunate to have grown up in a home with two Siberians. They were not show dogs, but good representatives of our breed. After college I got my first Siberian, did some obedience and started showing in conformation. At the same time I became interested in running dogs with the local sled dog club. Fast forward 20 plus years to 3 BOBs at the Siberian Husky National Specialty and five ISDRA medals. Dogs, particularly Siberians, have been a huge part of my life and continue to be. I am very honored to be asked to judge your puppies, sled dogs, and veterans. Nothing gives me greater pleasure than to see a dog doing what they were bred for.

**Mrs. Rosalind M. Hack**

I became interested in obedience and conformation in the 1970's with my Siberians. I had one High In Trial Siberian Husky. Conformation handling led to achieving international titles achieving a BIS, BISS Am. Can. Mex. Intl. World Champion.

My husband, Stanley Hack, is a retired lawyer. We have homes in Mequon, Wisconsin and Rancho Mirage, Ca. We've been active golfers and I taught duplicate bridge internationally on luxury cruise ships.

I am active in our communities and serve on various boards especially enjoying the performing arts. I've been an AKC judge over 30 years and member of SHCA over 35 years.

### AMERICAN KENNEL CLUB

Schedule of Points for Division 9 – Effective May 15, 2024

State of California

The Points toward a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of **both** sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of its **own sex** that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog or Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused or ordered from the ring by the judge, or from which all awards are withheld shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of the said points shall have been won under some other judge or judges than the two judges referred to above.

1 Point		2 Points	
Dogs	Bitches	Dogs	Bitches
2	2	4	4

## EMERGENCY PLANS

In accordance with the American Kennel Club, the Northern California Siberian Husky Club, Inc., has prepared an Emergency Plan. For your reference, here is important information you should know in case of an emergency. Please follow the directions of Club officials.

**Emergency Plan for People:**

Upon exiting the Solano County Fairgrounds parking lot, turn left or right onto Fairgrounds Drive. Turning right (North) will take you directly to Highway 37. Take Highway 37 West to Marin County, or take it to Highway 29 to go North toward Napa, or take it East to Highway 80 (either East or West). Turning left on Fairgrounds Drive will lead you to Redwood Road, which has an entrance to Highway 80 either East or West.

**To the Hospital:**

Kaiser Permanente is the closest hospital to the Solano County Fairgrounds. For emergency medical care, please call 911, or follow these directions to the Hospital. Exit the Fairgrounds parking by turning left (south) onto Fairgrounds Drive. At Sereno Drive, turn right. At Broadway, turn right. Kaiser Permanente will be on the left. The address is: 1761 Broadway, Vallejo, CA 94589.

**To the On-Call Veterinarian:**

The on-call veterinarian is approximately 2 miles from the Solano County Fairgrounds. Exit the parking lot by turning left (south) onto Fairgrounds Drive. At Redwood, turn left and you will pass over Highway 80. On the east side of Highway 80, turn left onto Admiral Callaghan Lane. Redwood Veterinarian will be on your left. The address is: 731 Admiral Callaghan Lane, Vallejo, 94591, (707) 553-1400

**To the After-Hours Veterinarian:**

The after-hours veterinarian is approximately 9.5 miles from the Solano County Fairgrounds. Exit the parking lot by turning right onto Fairgrounds Drive. Turn right to merge onto Highway 37 East, and stay to the left to merge into Highway 80 East (toward Sacramento). Drive approximately 8.5 miles, and take exit 41 for Suisun Valley Road/Pitman Road. Turn right onto Pittman Road. Turn left onto Central Place. Solano-Napa Emergency Clinic will be on the right. The address is: 4437 Central Place, Ste B3, Fairfield, CA 94534, (707) 864-1444, M-F 5:30PM-8:00 AM, Fri 6:30 PM-Mon 8:00 AM

**To the Fire Department:**

The closest fire station is 2.2 miles from the Solano County Fairgrounds. Exit the parking lot by turning right onto Fairgrounds Drive. Turn right to merge onto Highway 37. Take exit 21B toward Columbus Parkway toward Auto Mall. Turn left onto Ascot Court. Fire Station is on the left. The address: 1585 Ascot Ct, Vallejo, CA 94591, (707) 648-4526, or 911.

**To the Police Department:**

The Vallejo Police Department is 3.5 miles from the Solano County Fairgrounds. Exit the parking lot by turning left (south) onto Fairgrounds Drive. When you reach Redwood, go straight to enter Highway 80 West. Exit at Solano Avenue/Springs Road. Turn left onto Solano Avenue, and a sharp right onto Amador Street. The Police Department will be on the left. The address is: 111 Amador St, Vallejo, CA 94590, (707) 648-4321 or 911.

**\$254****THE STANDARD FOR SIBERIAN HUSKIES**

Approved by the American Kennel Club, February 9, 2021; Effective May 12, 2021

**General Appearance:** The Siberian Husky is a medium-sized working dog, quick and light on his feet and free and graceful in action. His moderately compact and well-furred body, erect ears and brush tail suggest his Northern heritage. His characteristic gait is smooth and seemingly effortless. He performs his original function in harness most capably, carrying a light load at a moderate speed over great distances. His body proportions and form reflect this basic balance of power, speed and endurance. The males of the Siberian Husky breed are masculine but never coarse; the bitches are feminine but without weakness of structure. In proper condition, with muscle firm and well developed, the Siberian Husky does not carry excess weight.

**Size, Proportion, Substance**

**Height:** Dogs, 21 to 23 1/2 inches at the withers. Bitches, 20 to 22 inches at the withers.

**Weight:** Dogs, 45 to 60 pounds. Bitches, 35 to 50 pounds. Weight is in proportion to height. The measurements mentioned above represent the extreme height and weight limits with no preference given to either extreme. Any appearance of excessive bone or weight should be penalized. In profile, the length of the body from the point of the shoulder to the rear point of the croup is slightly longer than the height of the body from the ground to the top of the withers. **Disqualification:** Dogs over 23 1/2 inches and bitches over 22 inches.

**Head**

**Expression:** Is keen, but friendly; interested and even mischievous.

**Eyes:** Almond shaped, moderately spaced and set a trifle obliquely. Eyes may be brown or blue in color; one of each or parti-colored are acceptable. **Faults:** Eyes set too obliquely; set too close together.

**Ears:** Of medium size, triangular in shape, close fitting and set high on the head. They are thick, well furred, slightly arched at the back, and strongly erect, with slightly rounded tips pointing straight up. **Faults:** Ears too large in proportion to the head; too wide-set; not strongly erect.

**Skull:** Of medium size and in proportion to the body; slightly rounded on top and tapering from the widest point to the eyes. **Faults:** Head clumsy or heavy; head too finely chiseled.

**Stop:** The stop is well-defined and the bridge of the nose is straight from the stop to the tip. **Fault:** Insufficient stop.

**Muzzle:** Of medium length; that is, the distance from the tip of the nose to the stop is equal to the distance from the stop to the occiput. The muzzle is of medium width, tapering gradually to the nose, with the tip neither pointed nor square. **Faults:** Muzzle either too snipy or too coarse; muzzle too short or too long.

**Nose:** Black in black, gray, sable or agouti dogs; liver in red dogs; black, liver or flesh-colored in white dogs. The lighter-streaked "snow nose" is equally acceptable.

**Lips:** Are well pigmented and close fitting.

**Teeth:** Closing in a scissors bite. **Fault:** any bite other than scissors.

**Neck, Topline, Body**

**Neck:** Medium in length, arched and carried proudly erect when dog is standing. When moving at a trot, the neck is extended so that the head is carried slightly forward. **Faults:** Neck too short and thick; neck too long.

**Chest:** Deep and strong, but not too broad, with the deepest point being just behind and level with the elbows. The ribs are well-sprung from the spine but flattened on the sides to allow for freedom of action. **Faults:** Chest too broad; "barrel ribs;" ribs too flat or weak.

**Back:** The back is straight and strong, with a level topline from withers to croup. It is of medium length, neither cobby nor slack from excessive length. The loin is taut and lean, narrower than the rib cage, and with a slight tuck-up. The croup slopes away from the spine at an angle, but never so steeply as to restrict the rearward thrust of the hind legs. **Faults:** Weak or slack back; roached back; sloping topline.

**Tail:** The well-furred tail of fox-brush shape is set on just below the level of the topline, and is usually carried over the back in a graceful sickle curve when the dog is at attention. When carried up, the tail does not curl to either side of the body, nor does it snap flat against the back. A trailing tail is normal for the dog when in repose. Hair on the tail is of medium length and approximately the same length on top, sides and bottom, giving the appearance of a round brush. **Faults:** A snapped or tightly curled tail; highly plumed tail; tail set too low or too high.

**Forequarters**

**Shoulders:** The shoulder blade is well laid back. The upper arm angles slightly backward from point of shoulder to elbow, and is never perpendicular to the ground. The muscles and ligaments holding the shoulder to the rib cage are firm and well-developed. **Faults:** Straight shoulders; loose shoulders.

**Forelegs:** When standing and viewed from the front, the legs are moderately spaced, parallel and straight, with the elbows close to the body and turned neither in nor out. Viewed from the side, pasterns are slightly slanted, with the pastern joint strong, but flexible. Bone is substantial but never heavy. Length of the leg from elbow to ground is slightly more than the distance from the elbow to the top of withers. Dewclaws on forelegs may be removed. *Faults:* Weak pasterns; too heavy bone; too narrow or too wide in the front; out at the elbows.

**Feet:** Oval in shape but not long. The paws are medium in size, compact and well-furred between the toes and pads. The pads are well-musled and thickly cushioned. The paws neither turn in nor out when the dog is in natural stance. *Faults:* Soft or splayed toes; paws too large and clumsy; paws too small and delicate; toeing in or out.

**Hindquarters:** When standing and viewed from the rear, the hind legs are moderately spaced and parallel. The upper thighs are well-musled and powerful, the stifles well bent, the hock joint well defined and set low to the ground. Dewclaws, if any, are to be removed. *Faults:* Straight stifles, cowhocks, too narrow or too wide in the rear.

**Coat:** The coat of the Siberian Husky is double and medium in length, giving a well-furred appearance, but is never so long as to obscure the clean-cut outline of the dog. The undercoat is soft and dense and of sufficient length to support the outer coat. The guard hairs of the outer coat are straight and somewhat smooth-lying, never harsh nor standing straight off from the body. It should be noted that the absence of the undercoat during the shedding season is normal. Trimming of whiskers and fur between the toes and around the feet to present a neater appearance is permissible. Trimming the fur on any other part of the dog is not to be condoned and should be severely penalized. *Faults:* Long, rough, or shaggy coat; texture too harsh or too silky; trimming of the coat, except as permitted above.

**Color, Patterns and Markings:** All ranges of the allowable colors which are black, gray, agouti, sable, red, and white. May be solid colored. May have multiple shades. May have white markings. A variety of symmetrical or asymmetrical markings and patterns are common, including piebald. No preference should be given to any allowable color, marking or pattern. Merle or brindle patterns are not allowable and are to be **disqualified**. Merle is defined as a marbling effect of dark patches against a lighter background of the same color and is not to be confused with a color patch of banded guard hairs amid white, as is seen in dogs with allowable piebald. Brindle is defined as darker and lighter single-colored guard hairs producing a vertical tiger striping, not to be confused with banded guard hairs and a different color undercoat, which may produce some apparent horizontal striping.

**Gait:** The Siberian Husky's characteristic gait is smooth and seemingly effortless. He is quick and light on his feet, and when in the show ring should be gaited on a loose lead at a moderately fast trot, exhibiting good reach in the forequarters and good drive in the hindquarters. When viewed from the front to rear while moving at a walk the Siberian Husky does not single-track, but as the speed increases the legs gradually angle inward until the pads are falling on a line directly under the longitudinal center of the body. As the pad marks converge, the forelegs and hind legs are carried straight forward, with neither elbows nor stifles turned in or out. Each hind leg moves in the path of the foreleg on the same side. While the dog is gaiting, the topline remains firm and level. *Faults:* Short, prancing or choppy gait, lumbering or rolling gait; crossing or crabbing.

**Temperament:** The characteristic temperament of the Siberian Husky is friendly and gentle, but also alert and outgoing. He does not display the possessive qualities of the guard dog, nor is he overly suspicious of strangers or aggressive with other dogs. Some measure of reserve and dignity may be expected in the mature dog. His intelligence, tractability, and eager disposition make him an agreeable companion and willing worker.

**Summary:** The most important breed characteristics of the Siberian Husky are medium size, moderate bone, well balanced proportions, ease and freedom of movement, proper coat, pleasing head and ears, correct tail, and good disposition. Any appearance of excessive bone or weight, constricted or clumsy gait, or long, rough coat should be penalized. The Siberian Husky never appears so heavy or coarse as to suggest a freighting animal; nor is he so light and fragile as to suggest a sprint-racing animal. In both sexes the Siberian Husky gives the appearance of being capable of great endurance. In addition to the faults already noted, the obvious structural faults common to all breeds are as undesirable in the Siberian Husky as in any other breed, even though they are not specifically mentioned herein.

**Disqualification:** Dogs over 23 1/2 inches and bitches over 22 inches. Merle and brindle patterns.
